- **BEST PRACTICES ROUNDTABLES:** *Facilitated by members of the MBA Board of Directors*
Is this recession stimulating innovative indie bookselling? Independent booksellers have ALWAYS had to deal with financial constraints, but what are bookstores AND vendors doing today to create new ways to generate sales and move forward in spite of tight times and slashed budgets?
 - Budget-conscious staff hiring and training
 - Inventory management when money is tight
 - Saving money for everyone by dealing effectively with publisher and vendor issues
 - Great marketing ideas on a shoestring budget

- Hear success stories from the Midwest, and learn about the important role that bookstores can play in the creation of independent business alliances and in convincing more and more consumers to shop locally.
- Q&A and discussion - bring your own ideas and experiences to share, too!

Presented by ABOVE THE TREELINE
Meeting Room 10-11-12, Upper Level
Presenter: Ruth Bradstreet, Director of Customer Service, Above the Treeline
Participating Bookseller: Chris Livingston, The Book Shelf, Winona, MN

- *This session is aimed primarily at all interested bookstore owners, managers, buyers and marketing staff. Sales reps already using Edelweiss with their accounts are welcome to attend to learn more or contribute their experiences, too.*
- Here's the most up-to-date information on the innovative new EDELWEISS interactive catalogs system for stores and their publisher reps. Get answers to those nagging questions you've wanted to ask!
- Watch EDELWEISS in action! Learn how to get started with EDELWEISS to share information about new titles and get customized catalogs from your reps.
- Edelweiss is a free system for catalog users that requires no affiliation with Above the Treeline.

EDELWEISS is a new interactive online catalog system created by Above the Treeline. Sales reps from participating publishers can use EDELWEISS to mark up catalogs for their accounts with order recommendations, detailed notes, tags and priorities. Stores then can use these marked up catalogs to work through the new season's title list in an effective and efficient manner with their rep on the phone or in person, making their own notes, tagging titles, and adding order quantities as they go. Or, if you don't have a sales rep, we'll show how you can still use the catalogs in EDELWEISS as a resource in a similar way, giving you access to new titles for several different publishers in one system.

This session will present a live demonstration of EDELWEISS the product, showing how to get started, how to mark up catalogs, and how to get new titles and orders into your POS system without laborious data entry. Two booksellers will be on hand to share their experiences and perspectives. The session is aimed primarily at bookstore owners, buyers, and their marketing staff. Note that **EDELWEISS is entirely free for booksellers and other catalog readers**, and does not require any affiliation with Above the Treeline. Newbies and experienced users alike are invited to join, ask questions, or share their experiences!
