## DAN PATCH: THE MOST FAMOUS ATHLETE IN AMERICA

In the time before the automobile, hundreds of thousands flocked to watch harness horse racing. And Dan Patch was its biggest star. He was a world record holder who earned millions of dollars a year at a time when Ty Cobb earned \$12,000.

And his story was forgotten.  
Until now.

“A mesmerizing look into a strange corner of American sports and folk history when Dan Patch became a household word...But the heart of the book is Dan Patch himself, a horse with an almost human capacity for calm and determination that deserves to be rediscovered by a modern audience.”
